FULL-SPECTRUM  
**HEMP EXTRACT**

---

Our full spectrum hemp extract or crude oil is derived through the first step in the extraction process. We use alcohol to extract our cannabinoid rich oil before filtering and removing all the non-distillable impurities, leaving behind only the CBD and other cannabinoids (including THC), terpenes, flavonoids and other compounds found naturally in the plant.

**Name:** Full-Spectrum Hemp Extract

**Active Ingredients:** 50-65+% Cannabidiol (CBD)

Including Trace amounts of: CBN, CBG, CBD, CBDv, CBDA

Also includes THC typically ranging between 0.3-3.5%
